

Remarks

In the Office Action, it is required that the pending claims be restricted to one of four groups (Groups I-IV) of inventions. Applicants provisionally elect, with traverse, Group II, drawn to compounds wherein X is NR₃. Applicants respectfully submit, however, that a single search directed to the genus recited by claim 1 would necessarily encompass all of the four groups set forth by the Examiner. For this reason, it is believed that the examination of Groups I, II, III, and IV would not impose an unreasonable burden on the Examiner. (Manual of Patent Examining Procedure, §803.01). Therefore, Applicants respectfully request that all of the claims be examined in the current application.

It is further required in the Office Action that a single species be also elected. Applicants provisionally elect the following compound:

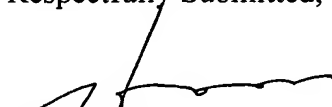

This compound reads on claims 1-6, 8, 9-14, 16 and 17-23.

No fee is believed to be due for this submission. However, should any fees be required for the submission of this paper, or to avoid abandonment of this application, please charge such fees to Jones Day Deposit Account No. 503013.

Respectfully Submitted,

Date: April 18, 2006
